# Global Minds Initiative Germany

**Our Global Minds Initiative Germany offers career prospects in Germany to internationally mobile researchers. Build your career in our excellent research landscape – we look forward to welcoming you!**

### **Opportunities**

- Pursue your career where freedom of science is enshrined in the constitution.
- Engage in inspiring research collaborations in an internationally open and world-class environment.
- Contribute to innovation and value creation through cutting-edge science and research.

### **Who can apply?**

International scientists and researchers from all disciplines and at various career levels – from early career researchers to established senior scientists.

### **Where can I conduct my research?**

Any university or research organization in Germany.

### **How long can I stay?**

Both short-term and long-term research stays are possible.
